

Community Engagement

WSÁNEĆ Leadership Council, in partnership with Tsawout Lands invites you to have your say!!!

In January 2020, WLC hosted community engagement sessions up until March 2020 when a global pandemic was declared. It has been a hard time but we made it through the pandemic! But now, it's even more important for us to hear about your concerns and what matters most to you regarding community health and well-being, Douglas Treaty rights, governance, the health of our land's waters, and everything else that's important to you.

We are inviting you and your family to join us and have your say in the future of WSÁNEĆ communities. We will be respecting all Provincial Health Guidelines for safety during meetings with proof of vaccination, contact tracing and mask requirements (unless you have an exemption).

Please come prepared to look to our oral history and creations stories to help guide us!

Dinner provided and Door Prizes! WSÁNEĆ members/ancestry only!
